## Experience

### SKU University

June - August 2024

Web development intern

Hybrid

- **MERN stack used:** **React.js** for UI, **Node.js/Express.js** for backend, **MongoDB** for storage.
- Developed a MERN stack-based Library Management System at SKU University managing 35,000+ books for 5,000+ students.
- Created multiple user dashboards for students, faculty, and admin, ensuring efficient book management.
- Key features include QR code book issuance and role-based access control.

## Technical Skills

**Programming Languages:** C, Java, JavaScript

**Frontend Technologies:** React JS, Tailwind CSS, HTML, CSS

**Backend Technologies:** Spring Boot, MongoDB

**Tools and Frameworks:** Selenium WebDriver, TestNG, Git, GitHub

**Core Competencies:** Data Structures and Algorithms, Solution Design and Architecture

**Soft Skills:** Analytical Thinking, Problem Solving, Cross-Functional Collaboration, Conflict Resolution

## Projects

### D-VALIDATE Smart India Hackathon

[Source Code](#)

- **Certificate Generation:** Engineered and validated certificates using blockchain technology.
- **Decentralized Security:** Utilized blockchain to securely store and verify certificates, reducing the risk of forgery by 85% and ensuring tamper-proof records for over 1,000 certificates.
- **Security and Integrity:** Ensured certificates were stored in a decentralized manner to prevent forgeries and maintain digital identity immutability, using SHA-256 Hashing.

### Selenium Web Automation Project

[Source Code](#)

- Automated test scripts using Selenium WebDriver and Java.
- Managed test execution with TestNG for comprehensive coverage.
- Generated detailed reports with Allure for analysis and tracking.
- Improved test reliability and stability through robust error handling.

### E-Commerce Website

[Source Code](#)

- **Technologies:** Java, JDBC, Servlets, Hibernate, Maven, HTML, CSS, JavaScript, MySQL.
- Developed an online shopping platform with admin and user functionalities.
- Admin features include product/category management and user monitoring.
- User features include account creation, product browsing, cart management, and checkout.
- Implemented generic servlets for backend functionality with scope for adding security enhancements.

## Certifications

- Completed a Core Java course at SS Computers Education Welfare Society, covering OOP, exception handling, and collections.
- Cisco Certified Network Associate (CCNAv7)

## Achievements

- **Hackverse Hackathon** — Awarded 2nd Runner-up in the Hackverse Hackathon.
- **CCNA** — Earned a badge for Cisco Certified Network Associate (CCNAv7)
- **LeetCode** — Solved 200+ Data Structures and Algorithms problems on LeetCode using java.

## Education

### Lovely Professional University, Phagwara

2022 - 2025

B.Tech in Computer Science & Engineering

7.0/10 CGPA

### Dr. Y C James Yen Government Polytechnic, Andhra Pradesh

2019 - 2022

Diploma in Computer Science & Engineering

7.8/10 CGPA
